## SUMMARY:

The tower received a pilot report of an "Oil Spill" at A-11. Sgt. Black responded to the area from a previous ALERT and observed two stains, approximately 18" in diameter, the first at the IFR hold line; the second about 35 ft east of the east edge of the runway. These appeared to be the result of previously unreported Jet-A spills or venting of fuel. The spills were washed down with water.
